

• EIDAS-COMPLIANT • EU REGULATION NO 910/2014

Qualified Electronic Signature, no subscription.

e-Signature.eu lets you sign documents with **itsme®** or **Evrotrust** across 62 countries, with the same legal value as a handwritten signature. The platform also supports advanced (AES) and simple (SES) signatures.

62

countries covered (QES)

4

signature methods

€0

subscription · prepaid

3

eIDAS levels (QES·AES·SES)

A complete platform

No subscription

Prepaid model. Buy credits, use them whenever you need them.

eIDAS Qualified

QES signature equivalent to a handwritten one (Art. 25.2 eIDAS).

International coverage

itsme® (32), Evrotrust (62), Veriff (198), OTP (universal).

Simple & fast

Create a request in a few clicks.
Automatic merge & PDF/A conversion.

Multiple signatories

Add as many signatories as needed,
with configurable signing order.

Notifications & reminders

Automatic reminders (1 to 14 days)
and a notification at each signature.

How it works

1

Create the request

Title, documents (all formats) and signatories.

2

Automatic conversion

Merged and converted into a secure PDF/A.

3

Signatories sign

Each receives an invitation and signs with their method.

4

Signed document

Embedded certificates, downloadable from your dashboard.

The 3 eIDAS signature levels

QES

Qualified

Strong identification via a QTSP-certified app.
Qualified certificate + QSCD.

≡ Handwritten signature

Presumption of validity — Art. 25.2

Methods: itsme® · Evrotrust

AES

Advanced

Identity verification by video.
Uniquely linked to the signatory.

High probative value

Admissible as evidence

Method: Veriff

SES

Simple

One-time code by email or SMS.
Universal, no registration required.

Admissible as evidence

Cannot be refused — Art. 25.1

Method: OTP email/SMS

API Integration

Integrate eIDAS qualified signatures directly into your apps — no infrastructure, no subscription.

FREE & INSTANT

KEY CAPABILITIES

- Standard REST API — compatible with all languages & frameworks.
- Automatic webhooks — signed document (Base64) delivered instantly.
- All methods via a single endpoint: itsme®, Evrotrust, Veriff, OTP.
- Centralised dashboard — full visibility over all signatures.
- Degressive pricing & reduced-rate test environment.

TWO INTEGRATION MODES

CLASSIC

Email invitations

e-Signature.eu manages invitations, reminders and tracking on your behalf.

NEW

Embedded signing

Signing URL returned to your server — clients sign within your own site, in real time.

Free & instant · Postman collection · Interactive documentation → www.e-signature.eu/api-signature-electronique

Geographic coverage

Method	Level	Countries
itsme®	QES	32
